Profile

Business Informatics graduate (Alexandru Ioan Cuza University of Iași) and Master's student in Project Management, with a strong foundation in software development, web design, databases, and economic information systems. Combines technical skills in Java, C#, JavaScript, React, Figma, and ERP systems (Microsoft Dynamics AX, WinMentor) with hands-on experience in customer-facing roles involving administrative software, financial transactions, and cross-cultural communication gained through an Erasmus placement abroad. Detail-oriented, adaptable, and motivated to apply technical, analytical, and project coordination skills in an entry-level role.

Languages: Romanian – Native | English – B2

Technical Skills

- Programming Languages: Java, JavaScript, C#
- Frontend: & Web design: React, HTML5, CSS3, SCSS, Responsive Design, Figma, WordPress, Vaadin
- Backend & Data: Java, JPA/Hibernate, REST APIs, Maven, Node.js tooling (Vite), Data Modeling
- Databases: PostgreSQL, Firebase, MongoDB, MariaDB
- DevOps & Tools: Git/GitHub, Docker, CI/CD (GitHub Actions), Vercel, Render
- Testing: Vitest, React Testing Library
- Project Management: Jira, requirements documentation, project planning, technical documentation (README, architecture notes), Master's in Project Management (in progress)
- ERP & Business Software: Microsoft Dynamics AX, WinMentor, 5StarDesk
- Security: Web security, network security, social engineering awareness (CyberEDU training)
- Other: Microsoft Office

Projects

ZeroWasteHome - Full-stack PWA for reducing household food waste | https://github.com/andreeacrauciuc/zerowastehome
React, Vite, Firebase, SCSS, Vitest

- Built a full-stack app with real-time shared data between users, barcode scanning and an analytics dashboard quantifying savings in money and CO_2.
- Integrated an AI recipe generator (Groq) through a serverless proxy, keeping API keys server-side.
- Secured data with Firestore security rules and set up a CI pipeline (GitHub Actions) for linting, testing, and a secret-scanning build gate.

Budget Tracker - Full-stack personal finance tracker | https://github.com/andreeacrauciuc/BudgetTracker
Java, Maven, JPA/Hibernate, PostgreSQL, Vaadin

- Modeled a relational domain with JPA/Hibernate entities and a repository-pattern data access layer (interface + implementation) backed by PostgreSQL.
- Built CRUD grid and form views in Vaadin for budgets and users, plus a portfolio analysis view aggregating balances and spending across accounts, with centralized exception handling.

CineMate - Movie and series discovery app | https://github.com/andreeacrauciuc/CineMate
React, JavaScript, OMDb API, SCSS

- Built a React app for discovering movies and series via the OMDb REST API, with debounced search, year and rating filters, and sorting, all reflected in the URL for shareable, bookmarkable results.
- Implemented request cancellation with AbortController and a normalized response cache to prevent race conditions and reduce redundant calls to a rate-limited API.
- Added a persistent watchlist (localStorage) with a watched/to-watch status and aggregate stats, with core logic covered by Vitest unit tests.

Education

Master's Degree in Project Management

Alexandru Ioan Cuza University of Iași (2026–2028)

Bachelor's Degree in Business Informatics

Alexandru Ioan Cuza University of Iași (2023–2026)

High School Diploma in Social Sciences

Liceul Tehnologic Nicolae Bălcescu (2019–2023)

Professional Experience

Supervisor (Erasmus+ Traineeship) – Hospitality & Customer

Elinotel Apolamare, Halkidiki, Greece | July 2026 – September 2026

- Supervised a team in F&B department, assigning daily tasks and making sure standards were met in a high-volume environment.
- Acted as the point of contact between guests and the team, resolving requests and escalating issues promptly.
- Resolved guest requests promptly and professionally in a high-volume environment.

Erasmus+ Traineeship – Hospitality & Customer Service

Nana Golden Beach, Crete, Greece | July 2025 – September 2025

- Contributed to daily operations of a large-scale resort within a diverse, international team.
- Developed strong organizational, time-management and cross-cultural communication skills.

Receptionist

RADION STAR SRL, Eforie Nord, Romania | July 2024 – September 2024

- Operated the 5StarDesk property management system for reservations, check-in/check-out, and guest record management.
- Processed payments, issued invoices and reconciled daily cash and card receipts.
- Maintained high service standards while resolving guest requests and administrative tasks in a fast-paced setting.

Certifications & Courses

- Dynamics AX – Economic Information Systems Specialization, SC Falcon Trading SRL (2026)
- WinMENTOR Enterprise – ERP Training Certificate (Accounting and Business Management), TH Junior SRL (2026)
- CyberEDU Professional Training - Cybersecurity (Web Security, Network Security, Social Engineering, Secure Coding and other modules), CyberEDU (2026)
